

# SYSTEM KNOW-HOW MINI CAMCORDER LIVE

CCU-SK1100

CA-SK330

## SKH

### CAMCORDER LIVE MINI

The SKH CCU-SK1100 universal camera control panel inherent with camera signals processor provides remote control for a range of professional camcorders from most major camera manufacturers, providing perfect emulation of control units from Sony, Panasonic, JVC and Canon. A 5.5mm hybrid fibre cable connects between CCU and the camcorder together via a CA-SK330 mini camera adaptor. The camcorder can be fastened on top of the CA adaptor. It makes a camcorder becomes a live system camera.

#### CCU-SK1100

- HD/SD System compatible
- Control processor and remote control panel are integrated into the unit
- Two SDI O/P; 2-wires/4-wires Intercom system
- 5.5mm hybrid fibre transfers signals up to 200m (Power, Control, AV, Return, TALLY, Intercom)
- Control for camcorder of Sony, Panasonic, JVC or Canon
- Camera Control functions: Gain, White Balance, Iris, Zoom and Focus etc.
- PTZ control on pantilt system

#### CA-SK330

- Provides intercom, tally, control, AV, return signals and DC power to the camera and auxiliary devices
- Supports SDI/HDMI input; and SDI output
- High quality HD-SDI return signal
- Supports camera control protocols of different manufacturers
